

Notification of completion of the mandatory elements

Returning to Teaching Program

Fully registered teachers with a Returning to Teaching (RTT) condition must complete an RTT program if they return or re-commence teaching in their five-year registration period. The timeframe for completion of the elements of the program will depend on the number of days a teacher teaches in a calendar year.

A teacher with an RTT condition who recommences teaching must satisfactorily complete the mandatory elements of an RTT program within 12 months of the date they recommence teaching in their five-year registration period. The RTT condition remains on their registration until all program elements have been undertaken.

If a teacher with an RTT condition teaches for 20 days or more in any calendar year in their registration period they must complete all RTT program elements within 12 months of the first day of teaching in that calendar year. A teacher can then apply to have the RTT condition reviewed and cancelled using the Application for Review of a Returning to Teaching condition form available on the Queensland College of Teachers (QCT) website.
