Introduction

To achieve full registration, evidence of performance is required at the Proficient career stage of the Australian Professional Standards for Teachers. The evidence presented by a teacher seeking full registration should cover a broad scope of the teacher’s knowledge, practice and engagement. It should demonstrate achievement of each of the seven Standards and take account of each of the descriptors. A piece of evidence can address multiple descriptors, within and across the Standards.

Evidence used to demonstrate achievement against the Standards will:
- be drawn directly from the teacher’s work
- be derived from a range of sources and must include:
  - evidence of student learning
  - observation of the teacher’s teaching
- be annotated to reflect achievement of the Standards by taking account of each of the descriptors
- show impact on student learning.

When developing evidence teachers should:
- work from their usual teaching context and draw on documents, observational notes, reflections and resources they use in their school or workplace.
- reference more than one descriptor against each piece of evidence where appropriate and avoid duplication of evidence
- use evidence that comes from multiple sources, for example:
  - performance data
  - student work
  - curriculum, planning and assessment documents
  - observations and professional conversations or collaborations with colleagues
  - student/parent feedback
  - records of guided reflections on practice and development against the Standards
- ensure the range and context of their teaching practice is illustrated in their evidence
- show the link between their teaching practice and its impact on student learning.

Showing the impact of teaching practice on student learning

Evidence of student learning should be supplied where applicable to a descriptor. Such evidence may include, for example, student conference outcomes, student work samples demonstrating progress, assessment records demonstrating progress over time, records of feedback, teacher reflection on student learning and needs, and student reflections.
Using Annotations

Annotation may take different forms such as handwritten notations attached to a sample of student work or lesson plan, or an explanatory paragraph attached to the evidence. A piece of evidence may have one annotation which provides information across a number of areas or multiple annotations covering individual issues.

Regardless of the form, an annotation should provide enough information so that the work can be understood by others and demonstrate a teacher’s achievement of the Standards/descriptors.

At a minimum an annotation should:
- identify the descriptor/s being accounted for and explain links between their evidence and the specific descriptor/s
- provide context to the evidence in order to situate the work such as, what, why and when
- demonstrate how the evidence shows achievement of the Standards/descriptor/s
- identify impact on student learning.

Annotation – Example 2

This lesson sequence on literacy demonstrates my achievement of the following descriptors for Standards 1, 2 and 3 (1.2, 1.3 1.5, 2.1, 2.2, 2.3, 2.6, 3.2, and 3.4).

The structure of the lesson sequence on sentence structure and writing show that I understand the curriculum and can design and implement appropriate and well sequenced classroom lessons. The lesson sequence also utilizes a range of learning activities such as group sessions, individual tasks and practical (hands-on) activities all of which cater to different learning needs within the classroom.

I have included with this sequence, assessment data collected during a previous literacy unit as this was used to inform my planning. The assessment data indicated the class needed further work on sentence writing. I developed the lesson sequence to build on students’ prior knowledge of sentence structure and used this knowledge to help students improve their written work. The lesson sequence includes a student assessment and reflection session which shows that most students in the class increased their sentence writing capacity.

The lesson sequence included a number of sessions using the interactive white board demonstrating how I integrate ICT into my general classroom practice. After observing one of my colleagues using the white board to capture student comments, I included this strategy in my lesson sequence. I used the white board to capture the sentences written by students during the session which we then used to construct a story, giving students an opportunity to participate more broadly.

Annotation – Example 1

My comments to the student on their math work illustrate how I provided feedback to help learning (5.2). By providing feedback during the lesson I helped the student to understand how to work through the problem. This enabled the student, as demonstrated in the completion of her work, to successfully finish the set tasks.
It is recognised that the evidence teachers can provide will vary depending on a number of contextual issues including level of schooling, position within a school, type of school and jurisdiction. Teachers are encouraged to utilise evidence that is specific to their own context.

While it may not be possible to provide direct evidence against every specific descriptor, for example ‘1.6 Strategies to support full participation of students with disability’, teachers are encouraged to use annotation to draw links and explain their knowledge of descriptors not directly applicable to their context. For example, a teacher who has not had the opportunity to teach a student with a disability may use annotation to show how teaching strategies they designed and implemented for managing diverse learning needs could be adapted to support the full participation and learning of students with a disability.

This section provides an illustrative example of how one piece of evidence may be used to account for a range of descriptors from different Standards.

Examples of evidence used to account for multiple descriptors

A single piece of evidence can be used to address multiple descriptors across the seven Standards. The following examples highlight a range of descriptors that may be covered by a single evidence piece. This list is neither comprehensive nor exhaustive.

For example:
- a single annotated teaching and learning program may:
  - promote language, literacy and numeracy skills (2.5)
  - include evidence of collaborative teaching (6.3)
  - show consistency with curriculum content (2.3)
  - utilise ICTs to enhance learning (2.6)
- a single teacher reflection may show:
  - evaluation of effectiveness of resources (3.4)
  - approaches to classroom management (4.2)
  - feedback from mentors/supervisors (6.3)
  - engagement with parents/carers (3.7)

Examples of evidence categorised into common evidence types

Teaching and learning programs and/or unit/lesson plans, for example:
- individual learning plans
- term, semester or year lesson plans/sequences
- across year level lesson plans
- resources, tasks and activities developed and used
- homework tasks set
- outcomes of research that inform program development
- mapping of student learning
- use of models of learning to develop teaching and learning programs and activities
- student directed learning goals
- development and display of classroom expectations
- classroom layout modification
Observations, for example:
- lesson observation notes
- post-observation meeting notes
- discussion notes
- observations documented of a variety of teacher practice/requirements
- documented or observed classroom behaviours/expectations
- video/photo of classroom environment
- reference from mentor teacher
- student task board
- use of a range of strategies to manage classroom behaviour

Feedback received and given, for example:
- student conference outcomes
- teacher records of feedback provided
- evidence of teacher record keeping system
- parent-teacher interview plans and records
- parent feedback
- 360 degree feedback
- survey of students
- student reflections and feedback
- mentoring received

Teacher reflections, for example:
- reflective notes on teaching strategies
- self analysis and reflection on teaching and learning plans and/or unit/lesson plans
- audit of the physical classroom environment
- professional reading log
- diary of practice and reflection
- reflection of student learning and needs analysis of effectiveness of assessment toolsestrategies

Examples of student assessment and/or student learning
- student conference outcomes
- teacher records of student data
- assessment plan demonstrating linkages to curriculum
- assessment schedule
- assessment tools/tests/strategies
- documentation of student(s) learning
- value adding to student(s) learning

Examples of communication strategies:
- conversation and collaboration logs
- meeting logs – from meetings with supervisors, parents, mentors, carers, specialists
- samples of two-way communication between teacher and parent/carer
- records of participation in parent-teacher interviews, professional development
- correspondence demonstrating mandatory reporting to meet legislative requirements

Collaborative work undertaken:
- team teaching evidence
- sharing of resources
- collegial planning and preparation
- peer review notes

Professional learning, for example:
- professional learning plan
- professional learning undertaken
- professional learning journal
- certificate of attendance at professional learning
- review of professional learning done
- action research project
- certificates of course completion e.g. OHS, First Aid
- membership of professional associations

Extracurricular
- presentations prepared and delivered
- exhibitions/display of student work conducted
- involvement in extra-curricular activities
- involvement in school policy development
- undergraduate and postgraduate studies
- formal writing piece to demonstrate knowledge
- development of sister/brother school exchanges
- production of risk assessment documents
- forms developed for camp
- evidence of community contact and involvement
APPENDIX 1
Examples of evidence - by descriptor

This appendix provides detailed examples of evidence for meeting each of the seven Standards and how they might be used to account for each descriptor.

These examples are not an exhaustive list and serve only as an illustration. They should not be viewed as a checklist.

Please note: One quality item can provide evidence for a range of descriptors if it has been appropriately annotated to explain, justify or reflect on practice.
**STANDARD 1**
Know students and how they learn

**FOCUS AREA 1.1**
**PHYSICAL, SOCIAL AND INTELLECTUAL DEVELOPMENT AND CHARACTERISTICS OF STUDENTS**

**Descriptor**
Use teaching strategies based on knowledge of students’ physical, social and intellectual development and characteristics to improve student learning.

**Examples of evidence**
- Explanation of differentiated teaching strategies based on the teacher’s knowledge of students’ physical, social or intellectual development to target the different areas of student learning requiring improvement
- Individual learning plans incorporating teaching strategies that have been selected specifically to address the students’ physical, social or intellectual development and characteristics
- Annotated conversation and collaboration log, notes or meeting agenda from working with specialist teachers, aides or colleagues that have assisted the teacher to select teaching strategies appropriate to their students’ physical, social or intellectual development and characteristics
- Analysis of the success of teaching strategies selected on the progress of the student, and how their learning has improved
- Lesson observation notes recording the teacher modifying manner to suit the developmental stages of students and/or using an appropriate level of language level for the students
- Unit/lesson plans demonstrating use of a variety of teaching strategies applicable to a range of students

**FOCUS AREA 1.2**
**UNDERSTAND HOW STUDENTS LEARN**

**Descriptor**
Structure teaching programs using research and collegial advice about how students learn.

**Examples of evidence**
- Meeting logs or documented reflections in relation to meetings with mentor/supervisor or other appropriate colleague who have provided advice about how to construct effective teaching programs that is based on colleague’s own research
- Meeting logs of mentor/supervisor or other appropriate colleague who have provided feedback, based on research, on a teacher’s program and the new version of the program
- Teaching and learning programs and/or unit/lesson plans which are annotated to demonstrate how they reflect research and/or collegial advice about how students learn
- Professional reading/viewing log and reflections that demonstrate research into how students learn
**FOCUS AREA 1.3**

**STUDENTS WITH DIVERSE LINGUISTIC, CULTURAL, RELIGIOUS AND SOCIOECONOMIC BACKGROUND**

**Descriptor**
Design and implement teaching strategies that are responsive to the learning strengths and needs of students from diverse linguistic, cultural, religious and socioeconomic backgrounds.

**Examples of evidence**
- Teaching and learning programs and/or unit/lesson plans that include teaching strategies that have been designed and implemented by the teacher based on the identified learning strengths and needs of students from diverse linguistic and/or cultural and/or religious and/or socioeconomic backgrounds.
- Lesson observation notes or documented reflections that record how the teaching strategies designed and implemented by the teacher have assisted students to meet the learning goals of the lesson.
- Post-observation meeting notes that include information as to how the teacher has used her or his knowledge of the learning strengths and needs of his or her students to inform the design of their teaching strategies so as to promote student learning.
- Individual learning programs for students from diverse linguistic and/or cultural and/or religious and/or socioeconomic backgrounds that include teaching strategies that have been designed based on information gathered about students’ learning strengths and needs.
- Information presented to colleagues regarding teaching and learning strategies he or she has designed and implemented in his or her classroom together that are responsive to the learning strengths and needs of students from diverse linguistic, cultural, religious and socioeconomic backgrounds.

**FOCUS AREA 1.4**

**STRATEGIES FOR TEACHING ABORIGINAL AND TORRES STRAIT ISLANDER STUDENTS**

**Descriptor**
Design and implement effective teaching strategies that are responsive to the local community and cultural setting, linguistic background and histories of Aboriginal and Torres Strait Islander students.

**Examples of evidence**
- Teaching and learning programs and/or unit/lesson plans that include teaching strategies that have been designed and implemented by the teacher based on the local community and cultural setting, linguistic background and histories of Aboriginal and Torres Strait Islander students.
- Individual learning programs for students from the local community and cultural setting, linguistic background and histories of Aboriginal and Torres Strait Islander students that include teaching strategies that have been designed based on information gathered about students’ learning strengths and needs.
- Evidence of having sought advice, assistance and guidance from persons such as supervisors, colleagues, Aboriginal Education Assistants, itinerant teachers, elders of Aboriginal communities, counsellors and other relevant professionals, such as emails, conversation records, file notes, participation in blogs, about teaching strategies that are responsive to the local community and cultural setting, linguistic background and histories of Aboriginal and Torres Strait Islander students.
- Lesson plans, notes and/or communications documenting team teaching and collaborative planning with Aboriginal Education Assistant or local community representative/s that include effective teaching strategies for Aboriginal and Torres Strait Islander students.
- Lesson observation notes and discussion about effective teaching strategies that has been modified to reflect the learning needs and histories of Aboriginal and Torres Strait Islander students.
FOCUS AREA 1.5
DIFFERENTIATE TEACHING TO MEET THE SPECIFIC LEARNING NEEDS OF STUDENTS ACROSS THE FULL RANGE OF ABILITIES

Descriptor
Develop teaching activities that incorporate differentiated strategies to meet the specific learning needs of students across a full range of abilities.

Examples of evidence
- Student led conference outcomes informing development of teaching activities and/or strategies to meet the specific learning strengths and needs of students across a full range of abilities
- Individual learning plans developed using specific teaching activities and/or strategies to meet individual needs and strengths of students across the full range of abilities
- Annotated student work samples/learning tasks demonstrating different teaching strategies used to meet the specific learning needs of students across the full range of abilities
- Teaching activities that have been developed as a result of collaborative planning or consultation with the ESL teacher/Counsellor/Aboriginal Education Assistant, Gifted and Talented Coordinator, Learning Support Coordinator

FOCUS AREA 1.6
STRATEGIES TO SUPPORT FULL PARTICIPATION OF STUDENTS WITH DISABILITY

Descriptor
Design and implement teaching activities that support the participation and learning of students with disability and address relevant policy and legislative requirements.

Examples of evidence
- Notes of meeting with parents, carers, specialists, support teams and services that assist the design and implementation of teaching and learning programs or units of work or lesson plans
- Lesson observation notes that record how the teaching strategies designed and implemented by the teacher have been adjusted to support the learning needs of individual students with disability in accordance with policy and Disability Standards for Education
- Individual learning plans developed for students with disability which may include modification of classroom layout or student task board
- Teaching and learning programs and/or unit/lesson plans including activities that support participation of individual students with disability, in accordance with policy and legislative requirements
- Demonstrated use of adaptive and assistive technologies to support participation and learning of individual students with disability
- Provides lesson plans, analysis and reflection which show a rationale for lesson content and structure based on specific learning needs of a student or students with disability
## STANDARD 2
Know the content and how to teach it

### FOCUS AREA 2.1
**CONTENT AND TEACHING STRATEGIES OF THE TEACHING AREA**

**Descriptor**
Apply knowledge of the content and teaching strategies of the teaching area to develop engaging teaching activities.

**Examples of evidence**
- Teaching and learning programs and/or units of work and/or lesson plans including learning activities designed to engage the students in learning
- Teaching and learning programs annotated to show modifications to activities designed to engage the students in learning
- Lesson observation notes or documented reflections about content, strategies and activities used specific to the learning context
- Student work samples that are annotated to show engagement in learning of content
- Relevant resources that have been customised to suit learning needs of students

### FOCUS AREA 2.2
**CONTENT SELECTION AND ORGANISATION**

**Descriptor**
Organise content into coherent, well-sequenced learning and teaching programs.

**Examples of evidence**
- Teaching and learning program and/or unit/lesson plans are sequenced to develop understanding of content
- Teaching and learning program and/or unit/lesson plans reflect curriculum requirements and are appropriately balanced
- Discussion and/or lesson observation notes of the teacher presenting content in a coherent, well-sequenced learning and teaching program
- Self analysis and reflection of the teaching and learning program and/or unit/lesson plans and their coherence and demonstrated student learning through assessment
- Unit/lesson plans that illustrate connections between content of teaching areas and development of subject-specific literacy and numeracy skills
FOCUS AREA 2.3

CURRICULUM, ASSESSMENT AND REPORTING

Descriptor

Design and implement learning and teaching programs using knowledge of curriculum, assessment and reporting requirements.

Examples of evidence

- Teacher records of feedback given to students demonstrating knowledge of curriculum, assessment and reporting requirements
- Lesson observation notes and discussion which shows that the teacher conforms to curriculum, assessment and reporting requirements
- Teaching and learning programs and/or lesson plans using appropriate knowledge of curriculum, assessment and reporting requirements
- Evidence of the teacher’s record keeping system, such as a copy of their mark book
- Written reports to parents demonstrating compliance with curriculum, assessment and reporting requirements
- Assessment plan which shows clear links to the learning and teaching program and reporting cycle
- Self-reflection or documented evidence of value adding to student results
- Assessment activities, criteria and marking guides that illustrate how assessment relates to curriculum and learning outcomes

FOCUS AREA 2.4

UNDERSTAND AND RESPECT ABORIGINAL AND TORRES STRAIT ISLANDER PEOPLE TO PROMOTE RECONCILIATION BETWEEN INDIGENOUS AND NON-INDIGENOUS AUSTRALIANS

Descriptor

Provide opportunities for students to develop understanding of and respect for Aboriginal and Torres Strait Islander histories, cultures and languages.

Examples of evidence

- Teaching and learning programs and/or lesson plans with a variety of teaching and learning activities that link to syllabus outcomes/objectives and/or school or system policies to support student understanding of and respect for Aboriginal and Torres Strait Islander histories, cultures and languages
- Lesson observation notes and discussion about lesson content and structure to develop student understanding of and respect for Aboriginal and Torres Strait Islander histories, cultures and languages
- Teaching and learning programs and/or lesson plans using appropriate knowledge of curriculum, assessment and reporting requirements
- Evidence of the teacher’s record keeping system, such as a copy of their mark book
- Written reports to parents demonstrating compliance with curriculum, assessment and reporting requirements
- Assessment plan which shows clear links to the learning and teaching program and reporting cycle
- Self-reflection or documented evidence of value adding to student results
- Assessment activities, criteria and marking guides that illustrate how assessment relates to curriculum and learning outcomes
- Records of pastoral work with students to develop understanding of and respect for Aboriginal and Torres Strait Islander histories, cultures and languages
- Observations/records of participation in assemblies, fieldwork or community involvement to develop understanding of and respect for Aboriginal and Torres Strait Islander histories, cultures and languages
FOCUS AREA 2.5
LITERACY AND NUMERACY STRATEGIES

Descriptor

Apply knowledge and understanding of effective teaching strategies to support students’ literacy and numeracy achievement.

Examples of evidence

- Teaching and learning programs and/or lesson plans with a variety of teaching and learning activities (e.g. differentiated curriculum, collaborative learning, ICT, higher order thinking) that link to syllabus outcomes/objectives
- Teaching and learning programs and/or lesson plans which show the application of explicit and structured literacy and numeracy strategies
- Lesson observation notes and discussion about lesson content and structure which show the teacher’s knowledge, understanding, and/or teaching strategies to support students’ literacy and/or numeracy achievement
- Student work samples linked to excerpts from program or lesson plans demonstrating literacy and/or numeracy strategies and student learning
- Lesson observation notes, emails, records of discussion, file notes, participation in blogs which show the teacher having worked collaboratively with external support, such as ESL teachers and support teachers to meet student literacy and/or numeracy needs

FOCUS AREA 2.6
INFORMATION AND COMMUNICATION TECHNOLOGY (ICT)

Descriptor

Use effective teaching strategies to integrate ICT into learning and teaching programs to make selected content relevant and meaningful.

Examples of evidence

- Teaching and learning programs and/or lesson plans with a variety of ICT teaching and learning activities (e.g., Web-based research, Web 2.0 tools such as podcasting, blogs, social bookmarking, social networking, RSS, use of ICT applications such as Word, PowerPoint, Excel and subject/KLA/stage appropriate software) that link to syllabus outcomes/objectives and take into account available ICT resources
- Lesson observation notes, reflection and discussion about the integration of ICT into lesson content and structure
- Teaching and learning programs and/or lesson plans which show the integration of ICT into activities to make content more meaningful
- Lesson observation notes, emails, records of discussion, file notes, participation in blogs which show the teacher having worked collaboratively with ICT integrator or support staff
- Student reflections which show that ICT resources are relevant and meaningful to students’ learning needs and interests
## STANDARD 3
Plan for and implement effective teaching and learning

### FOCUS AREA 3.1
**ESTABLISH CHALLENGING LEARNING GOALS**

**Descriptor**
Set explicit, challenging and achievable learning goals for all students.

**Examples of evidence**
- Teaching and learning programs and/or lesson plans, analysis or reflections which:
  - show reference to the explicit, challenging and achievable learning goals for all students during the teaching and learning cycle
  - relate teaching and learning goals to the curriculum
- Student work samples that are linked to teaching and learning programs and/or lesson plans to demonstrate the link between goals set, assessment and student learning
- Lesson observation notes and/or discussion where the teacher:
  - articulates high yet realistic and measurable goals so students understand the direction of the lesson and expectations
  - explains to students what the goals are and what steps are to be taken in order to achieve them
- Lesson evaluation notes where the teacher evaluates the lesson based on the level of achievement of goals
- Development of Individual Learning Plans for students

### FOCUS AREA 3.2
**PLAN, STRUCTURE AND SEQUENCE LEARNING PROGRAMS**

**Descriptor**
Plan and implement well-structured learning and teaching programs or lesson sequences that engage students and promote learning.

**Examples of evidence**
- Teaching and learning programs and/or lesson plans, analysis or reflections which show reference to the teaching and learning cycle and different models of learning
- Lesson observations notes and discussion records of lesson content and structure which show:
  - planning and implementation of well-structured learning and teaching programs or lesson sequences
  - students are engaged in interesting lessons
- Student work samples that are linked to teaching and learning programs and/or lesson plans to demonstrate the link between goals set, assessment and student learning
- Lesson observation notes where the teacher:
  - explains to students what the goals are and what steps are to be taken in order to achieve them
- Lesson plans that display flexibility, logic, sequencing and variety in activities and resources
- Sample homework tasks that are relevant to the lesson
- Assessment items that measure student achievement of stated outcomes
FOCUS AREA 3.3
USE TEACHING STRATEGIES

Descriptor
Select and use relevant teaching strategies to develop knowledge, skills, problem solving and critical and creative thinking.

Examples of evidence
- Teaching and learning programs and/or lesson plans which show a variety of teaching and learning activities including:
  - problem solving, critical thinking and creative thinking that link syllabus outcomes/objectives
  - debate, hands-on activities, role playing, practical activities, frequent opportunities for skills practice, relevant projects, site studies and excursions
- Lesson observations notes and discussion records:
  - of lesson content and structure which show that the teacher has selected a range of appropriate teaching strategies
  - that show how the teacher has used a variety of group structures to develop knowledge, skills, problem solving, creative and critical thinking and collaboration
- Student work samples which show how the teacher has promoted self-directed work
- Lesson plans which show the selection and use of appropriate ICT based strategies and applications to develop knowledge, skills, problem solving and critical and creative thinking

FOCUS AREA 3.4
SELECT AND USE RESOURCES

Descriptor
Select and/or create and use a range of resources, including ICT, to engage students in their learning.

Examples of evidence
- Teaching and learning programs and/or lesson plans which show a variety of teaching and learning resources, including ICT, which link syllabus outcomes/objectives
- Lesson observation notes and discussion records that show that the teacher has selected, created and used a range of resources, including ICT, to engage students in their learning
- Student work samples which show that students are engaged in their learning and that a variety of resources, including ICT, has been used
- Lesson plans, analysis and reflections that show how the teacher has mapped resources, including ICT, to students’ learning needs
- Examples of resources used in the classroom that have been customised by the teacher for students to access
- Teaching programs and/or lesson plans which show that the teacher has used curriculum support materials effectively, developed reusable resources, incorporated resources into the classroom environment, changed resources according to the activity, trialed resources, supported students’ critical thinking in use of resources and ensured that students use resources appropriately
FOCUS AREA 3.5

USE EFFECTIVE CLASSROOM COMMUNICATION

Descriptor

Use effective verbal and non-verbal communication strategies to support student understanding, participation, engagement and achievement.

Examples of evidence

- Lesson observation notes and discussion records about the teacher’s interaction with students that show that the teacher has used effective verbal and non-verbal communication strategies in the classroom to support student understanding, participation, engagement and achievement, including responding positively and inclusively to all students
- Student work samples that demonstrate the teacher’s effective communication strategies
- Lesson observation notes which show that the teacher models use of grammatically acceptable and precise language, explains and uses appropriate terms for the level and stage, speaks loudly enough for all students to hear, uses voice effectively with respect to pitch, strength, speed and confidence, uses a mixture of oral and visual communication strategies
- Lesson plans which show the use of advanced organisers, such as concept maps, and use of visual learning aids
- Lesson observations of the teacher using effective questioning and/or discussion techniques, including a variety of questions at appropriate levels and encourages risk-taking and prepares students for discussion
- Teaching and learning programs and lesson plans that demonstrate personal literacy and attention to the development of literacy skills of students to enable understanding, participation, engagement and achievement

FOCUS AREA 3.6

EVALUATE AND IMPROVE TEACHING PROGRAMS

Descriptor

Evaluate personal teaching and learning programs using evidence, including feedback from students and student assessment data, to inform planning.

Examples of evidence

- Teaching and learning programs and/or lesson plans, analysis or reflections which show reference to the teaching and learning cycle and scope and sequence
- Evaluation of teaching and learning programs and/or lesson plans, based on evidence, including evidence of use of student feedback to evaluate and improve teaching and learning programs
- Modified teaching and learning programs or lesson plans based on evaluation of evidence, including feedback from student assessment data, of how the students performed, what went well, what did not work and why
- Record of meetings with supervisor regarding teaching observed, lesson planning and student learning, including feedback from student assessment data
FOCUS AREA 3.7

ENGAGE PARENTS/ CARERS IN THE EDUCATIVE PROCESS

Descriptor

Plan for appropriate and contextually relevant opportunities for parents/ carers to be involved in their children’s learning.

Examples of evidence

- Plans for parent/carer and teacher interviews
- Emails, letters and other records of communications between the teacher and parents/carers to encourage parents/carers to be involved in school and/or classroom activities
- Lesson plans or lesson observations which show how parents/carers’ skills, knowledge and expertise have been used in accordance with school protocols to enhance teaching and learning programs
- Samples of two-way communication between the teacher and parents/carers, including opportunities for parents/carers to give feedback on homework, class newsletters
- Records of participation in and preparation for parent/carer and teacher meetings
FOCUS AREA 4.2
MANAGE CLASSROOM ACTIVITIES

Descriptor
Establish and maintain orderly and workable routines to create an environment where student time is spent on learning tasks.

Examples of evidence
- Lesson observations, notes and discussion of:
  - student time spent on learning tasks
  - established explicit routines which are implemented and enforced consistently
  - systems implemented that encourage student learning
- Classroom management documentation, including annotated copy of school behaviour management forms
- Documented and/or observed implementation of classroom management strategies, including entering/exiting the room, interactions and moving in the classroom during lessons
- Classroom management documentation, including annotated copy of school behaviour management forms
- Video/photo of classroom environment incorporating an audit of how it will promote inclusive and positive interaction to engage and support all students

FOCUS AREA 4.1
SUPPORT STUDENT PARTICIPATION

Descriptor
Establish and implement inclusive and positive interactions to engage and support all students in classroom activities.

Examples of evidence
- Lesson observation notes and discussion about:
  - interactions with students (using students’ names, shows respect for significant events in students’ lives, listens positively to students, acknowledges students’ contributions, allowing students to respond appropriately, being accessible to students, displaying equitable amounts of time/engagement with individuals, dealing with issues/problems fairly, exhibiting a caring attitude and showing interest in all students acknowledgement and value for student responses and inclusive distribution of questions around the class so that all can participate, including use of further questions to draw out answers from reluctant students)
  - the classroom/learning environment, lesson content and structure, communication strategies and the effectiveness of classroom discussion and group work
  - celebration of student work, including publicly acknowledging or praising student effort, offering constructive feedback, encouraging individual talents and gifts and offering students extra help, time or explanation if required
  - the teacher’s modelling of respect, rapport, work ethic, politeness and positive language and tone when dealing with students, colleagues and parents/carers
- Lesson observation notes and/or annotated class roll to display awareness of students’ needs and backgrounds
- Documented or observed management of student behavior including implementation of clear expectations, protocols and/or rules and consequences
- Video/photo of classroom environment incorporating an audit of how it will promote inclusive and positive interaction to engage and support all students

STANDARD 4
Create and maintain supportive and safe learning environments

Professional Practice
FOCUS AREA 4.3

MANAGE CHALLENGING BEHAVIOUR

Descriptor

Manage challenging behaviour by establishing and negotiating clear expectations with students and addressing discipline issues promptly, fairly and respectfully.

Examples of evidence

- Lesson observations, notes, videos, photos and discussion notes which show clear evidence of student interactions and understanding of expectations and consequences
- Emails or other correspondence or records that show implementation and maintenance of school discipline and welfare policies, implementation of the school’s referral process
- Documents, such as emails, letters or notes from conversations and meetings to show how the teacher follows up and ensures students complete tasks
- Lesson plans, observations, notes, correspondence or reflections that show implementation of school discipline and welfare policies and positive welfare/classroom practices which reflect school policies including a range of strategies to manage classroom behaviour

FOCUS AREA 4.4

MAINTAIN STUDENT SAFETY

Descriptor

Ensure students’ wellbeing and safety within school by implementing school and/or system, curriculum and legislative requirements.

Examples of evidence

- Lesson plans, observation notes, reflections on correspondence or reflections that show implementation of school discipline and welfare policies and positive welfare/classroom practices which reflect school policies
- Lesson and/or fieldwork plans which show that the teacher knows and understands the concept and implications of risk management and can clearly identify risks
- Lesson plans and/or observation notes which show awareness of school and/or system requirements in terms of bullying
- Correspondence, meeting records or risk assessment documentation to show recognition of individual risk assessments for individual students and referrals where relevant
- Lesson observations showing that the teacher implements safety procedures such as being first into the room and last out, ensuring eye contact with students, avoiding turning back to write on the board or assisting individual students for extended periods, maintaining a physically clear classroom
- Correspondence showing that the teacher reports issues or incidents to appropriate personnel
- Documentation, such as marked rolls and annotated rolls, recording student attendance, absence and student safety concerns
FOCUS AREA 4.5

USE ICT SAFELY, RESPONSIBLY AND ETHICALLY

Descriptor

Incorporate strategies to promote the safe, responsible and ethical use of ICT in learning and teaching.

Examples of evidence

- Teaching and learning programs that demonstrate explicit inclusion of outcomes to promote the safe, responsible and ethical use of ICT
- Lesson plans and/or classroom observation notes which show explicit teaching and learning strategies to promote safe, responsible and ethical use of ICT in learning and teaching (for example, awareness of cyber bullying, harassment, appropriate use of text messaging, plagiarism, referencing conventions and academic honesty)
- Assessment tasks that include clear guidelines to students about plagiarism, referencing conventions and academic honesty
- Samples of email and online communications (such as blogs) between teacher and students that model responsible and ethical use of ICT
- Printed excerpts of student online communications with each other that demonstrate their responsible and ethical use of ICT as a consequence of identified learning and teaching strategies
STANDARD 5
Assess, provide feedback and report on student learning

FOCUS AREA 5.1
ASSESS STUDENT LEARNING

Descriptor
Develop, select and use informal and formal, diagnostic, formative and summative assessment strategies to assess student learning.

Examples of evidence
- Examples of student work resulting from various assessment strategies developed by the teacher
- Notes from observation of teacher relating to use of assessment strategies
- Examples of lesson plans or excerpts from T/L program showing planned assessments and strategies to be used
- Teacher’s analysis of a sample of student work that recognises diagnostic information to be used
- Teacher’s notes from evaluation of lesson/s showing informal assessment information gathered
- Teacher’s class assessment schedule showing range of assessment strategies with analysis of expected use
- Assessment rubrics developed as part of a teaching program to assess students’ achievement of learning goals
- Assessment plans, tasks, marking criteria or rubrics, student work samples and examples of provided feedback that reference curriculum/unit outcomes or objectives

FOCUS AREA 5.2
PROVIDE FEEDBACK TO STUDENTS ON THEIR LEARNING

Descriptor
Provide timely, effective and appropriate feedback to students about their achievement relative to their learning goals.

Examples of evidence
- Logs of student conferences outlining feedback given to students on progress and achievement against their learning goals
- Question matrix developed to allow students to receive consistently structured feedback on their learning including positive achievement and areas for improvement, why and how to achieve goals and how to move forward
- Examples of student work showing teacher feedback
- Teaching and learning programs or units of work or lesson plans individualised for students to address specific issues identified by assessment data
- Record of report moderation between teaching colleagues to demonstrate students are receiving timely, consistent and efficient feedback aligned with their learning goals
Professional Practice

FOCUS AREA 5.3
MAKE CONSISTENT AND COMPARABLE JUDGMENTS

Descriptor
Understand and participate in assessment moderation activities to support consistent and comparable judgments of student learning.

Examples of evidence
- Team moderation report produced following moderation of student assessment where assessment judgements are adjusted to improve consistency and comparability
- Work samples produced that have been annotated to reflect assessment rubric formation
- Assessment rubrics developed as part of a teaching program to assess students’ achievement of learning goals
- Assessment plans, tasks, marking criteria or rubrics, student work samples and examples of provided feedback that implement the school or system policy regarding the moderation of assessment activities

FOCUS AREA 5.4
INTERPRET STUDENT DATA

Descriptor
Use student assessment data to analyse and evaluate student understanding of subject/content, identifying interventions and modifying teaching practice.

Examples of evidence
- Analysis of student assessment data identifying strengths and weaknesses in students understanding of core concepts in learning areas
- Evaluation of teaching program and/or lesson plans with specific reference to student assessment data to analyse and evaluate student understanding of the content/lesson with identification of interventions and modifications to teaching practice to reflect analysis of assessment data
- Teaching and learning programs and/or lesson plans annotated to show modification as a result of student assessment data
- Description of intervention techniques for students as a result of the data compiled following assessment of learning
- Analysis of a sample of student work that recognises diagnostic information to be used
- Comparison between assessment of prior learning and assessments after content has been taught
- Assessment of individual learning plans in relation to achievement of learning outcomes
FOCUS AREA 5.5

REPORT ON STUDENT ACHIEVEMENT

Descriptor

Report clearly, accurately and respectfully to students and parents/carers about student achievement, making use of accurate and reliable records.

Examples of evidence

- De-identified record of three way conferences conducted to discuss student achievement involving students and parents/carers in accordance with school policy and practice
- Accurate, reliable and comprehensive assessment records that have been maintained for each student and used to assist reporting
- De-identified record of engagement with parents/carers through mediums such as phone, email, meetings, etc demonstrating constant liaison regarding student achievement
- Preparation for parent-teacher interviews demonstrating accurate and respectful reporting of students’ strengths and weaknesses and identifying future opportunities for improvement of each student
- De-identified student assessment reports to parents
Professional Engagement

STANDARD 6
Engage in professional learning

FOCUS AREA 6.1
IDENTIFY AND PLAN PROFESSIONAL LEARNING NEEDS

Descriptor
Use the Australian Professional Standards for Teachers and advice from colleagues to identify and plan professional learning needs.

Examples of evidence
- Meeting records with supervisor and/or colleagues regarding observed teaching, lesson planning and student achievement that are linked to identified Standards, focus areas and/or descriptors from the Australian Professional Standards for Teachers
- Professional learning plan that is linked to identified Standards, focus areas and/or descriptors from the Australian Professional Standards for Teachers
- Record of engagement in professional development courses and professional learning activities (for example, listening to and learning from colleagues, professional reading, working with or as a mentor or coach, undertaking post-graduate study, participating in school or system based professional learning projects such as lesson study and other forms of action research), including their relevance to identified Standards, focus areas and/or descriptors from the Australian Professional Standards for Teachers
- Performance appraisal documents identifying goals for learning that link to the Australian Professional Standards for Teachers

FOCUS AREA 6.2
ENGAGE IN PROFESSIONAL LEARNING AND IMPROVE PRACTICE

Descriptor
Participate in learning to update knowledge and practice, targeted to professional needs and school and/or system priorities.

Examples of evidence
- Evidence of participation in professional learning activities to update knowledge and practice (including online professional learning opportunities, such as online courses, blogs and webinars), targeted to school and/or system priorities
- Professional learning plan that contains self-analysis and reflection in relating professional learning to knowledge and practice, targeted professional learning needs and school and/or system priorities
### FOCUS AREA 6.3

**ENGAGE WITH COLLEAGUES AND IMPROVE PRACTICE**

**Descriptor**
Contribute to collegial discussions and apply constructive feedback from colleagues to improve professional knowledge and practice.

**Examples of evidence**
- Minutes of professional committee meetings of which the teacher is an active participant, detailing the involvement of the teacher in collaborative discussion, evaluation and reflection
- Evidence of participation in online discussions, online courses, blogs and other virtual professional learning communities, such as a printout of an excerpt of the online discussion which shows the teacher’s participation with colleagues
- Evidence of engagement in regular constructive discussion with colleagues including feedback aimed at supporting improvement in professional practice and annotation of teaching and learning programs and/or unit/lesson plans accordingly
- Documented reflection on practice arising from a professional discussion with a colleague

### FOCUS AREA 6.4

**APPLY PROFESSIONAL LEARNING AND IMPROVE STUDENT LEARNING**

**Descriptor**
Undertake professional learning programs designed to address identified student learning needs.

**Examples of evidence**
- Professional learning plan which shows a selection of professional development courses and other professional learning activities that are based on identified student learning needs
- Student assessment that informs the choice of professional learning to be sourced and undertaken
- Professional reading log showing reading undertaken which addresses identified student learning needs
- Action research undertaken to address identified student learning needs with a focus on improved teacher practice
Professional Engagement

STANDARD 7
Engage professionally with colleagues, parents/carers and the community

FOCUS AREA 7.1
MEET PROFESSIONAL ETHICS AND RESPONSIBILITIES

Descriptor
Meet codes of ethics and conduct established by regulatory authorities, systems and schools.

Examples of evidence
- Appropriately de-identified meeting records, emails and other communications which show an understanding of mandatory reporting requirements
- Annotated teaching and learning programs, lesson plans, teaching materials and/or assessments which show appropriate credit given to sources, including colleagues, websites, books, journal articles
- Notes or other communications which show permission being sought from students and/or colleagues for the use of their intellectual property where required
- Reference or endorsement from principal/employer

FOCUS AREA 7.2
COMPLY WITH LEGISLATIVE, ADMINISTRATIVE AND ORGANISATIONAL REQUIREMENTS

Descriptor
Understand the implications of and comply with relevant legislative, administrative, organisational and professional requirements, policies and processes.

Examples of evidence
- Meeting records, emails and other communications which show an understanding of mandatory reporting requirements
- Teaching and learning programs and/or lesson plans which show evidence of implementation of mandatory policy documents
- Classroom behavior policy which shows the implementation of school and system policies and procedures
- Professional learning undertaken regarding relevant legislative, administrative, organizational and professional requirements and teacher accountability
- De-identified communication demonstrating compliance with relevant legislative, administrative, organisational and professional requirements
- Reference or endorsement from principal/employer
FOCUS AREA 7.3

ENGAGE WITH THE PARENTS/CARERS

Descriptor
Establish and maintain respectful collaborative relationships with parents/careers regarding their children’s learning and well-being.

Examples of evidence
- Written reports and records of student progress, letters home and other written communications with parents/carers that demonstrate respect and collaboration regarding the child’s learning and well-being and that follow school protocols
- Planning documents for meetings with parents/carers
- Notes from observations by supervisor/mentor (for example, in meetings, during assemblies and community meetings, on excursions, in parent/teacher meetings) show the teacher establishes/maintains respectful collaborative relationships through the use of appropriate language, tone and body language
- Examples of opportunities for parent/carer contributions to homework sheets, class newsletters and at parent-teacher meetings

FOCUS AREA 7.4

ENGAGE WITH PROFESSIONAL TEACHING NETWORKS AND BROADER COMMUNITIES

Descriptor
Participate in professional and community networks and forums to broaden knowledge and improve practice.

Examples of evidence
- Certificates to validate attendance at beginning teacher and professional networking meetings, including online educational forums, with reflections that show how knowledge has been broadened and/or practice has been improved
- Printout of excerpt from online professional or community networks (for example, beginning teachers) which shows participation to broaden knowledge and improve practice
- Communication which shows participation in professional and community networks through the use of appropriate language, tone and body language
- Record of activities undertaken in a professional network
This evidence mapping template is an optional resource that may assist provisionally registered teachers ensure evidence has been provided against each Standard/descriptor.

Please note: There is no prescribed number of pieces that must be provided as evidence in support of an application.
## 1 - Know Students and How They Learn

<table>

APPENDIX 3
Presenting examples of evidence

There are no specific procedures, requirements or templates for presenting examples of evidence. Provisionally registered teachers are advised to discuss options with their Principal or mentor/supervisors early in the process to avoid spending unnecessary time compiling and collating excessive material.

The following examples are included to illustrate just two of the many possible approaches provisionally registered teachers may take when presenting their examples of evidence.
ILLUSTRATION 1: EVIDENCED-BASED REFLECTION
Using a single activity to address multiple APST descriptors

Sample activity
Field trip to cemetery as part of history unit

This example serves as an illustration only. It shows how one quality item/activity can provide evidence for a range of descriptors if it has been appropriately annotated to explain, justify or reflect on practice.

In this example the teacher has used details of a school excursion to address multiple descriptors across the Standards. The teacher has provided a reflective account (annotation) and attachments to provide a context for the work (what, why and when); and to explain links between the evidence and the specific descriptor/s.

A tally of the descriptors mentioned by the teacher in the reflection/annotation would reveal that the teacher would have to provide additional evidence, including evidence of student learning and observation of her teaching, to ensure all descriptors are addressed more than just superficially.

Supporting documents provided with this annotation/description/reflection include:
1. Workshop reading –Descriptors 2.1, 6.2
2. Unit overview – Descriptors 2.4, 2.1, 2.2
3. Curriculum extracts – Descriptors 2.2
4. Field study preparation checklist – Descriptors 4.2, 6.4
5. Risk assessment, including cemetery photos – Descriptors 4.4, 7.2, 7.3
6. Cemetery worksheet – Descriptors 1.3, 1.4, 1.5, 2.5, 3.3
7. Permission letter – 22, 7.3, 4.4, 3.7
8. Email from a parent who assisted with the excursion – Descriptors 4.2, 7.3

At the end of last year I decided my lack of knowledge of the history curriculum and history pedagogy was a concern. Because it was also a new area for many of my colleagues it was difficult to get support in the staffroom. I decided to join the History Teachers Association as a means of engaging more with the subject. Shortly after I joined there was an opportunity to attend a three hour workshop on engaging with the local environment.

The workshop was excellent, providing me with lots of ideas for using the local area as a means of helping students relate to history and history concepts (Attachment 1 - Workshop reading).

As a result of the workshop I decided to organise an excursion to the nearby historical cemetery for my Year 5 class as part of our unit on the region’s early settlers (Attachment 2 – Unit overview and Attachment 3 – Curriculum extracts). To make sure I didn’t miss important organisational details I developed a field study preparation checklist (Attachment 4). I visited the cemetery myself first to determine its suitability as a location, both as a source of content and as a safe, relatively risk free environment and completed the required risk assessment (Attachment 5 – Risk assessment and photos). The old section of the cemetery (pre 1920) had great potential as a source of information about mortality rates and causes, family sizes, name trends, and economic status.

While I was checking the cemetery I also took the opportunity to develop some questions related to the information available on the headstones. I refined the questions and developed an excursion worksheet (Attachment 6 - Worksheet based on the questions and related curriculum content. The worksheet provided a great opportunity to incorporate some subject specific literacy and numeracy activities (2.5) because of the need to tally, determine average ages, and interpret information on the headstones (including rhymes, quotes). To cater for individual learning needs and to create lean learning challenges the worksheet included optional tasks.

A letter was sent home to parents (Attachment 7), describing the excursion and the reason for it and outlining requirements. Parents were also invited to attend to provide support and for their own interest.

Because the worksheet also included a research element, students had until the end of the week to hand in for marking. I developed a marking criteria sheet with the class prior to the field trip. We used this as a basis for discussion in the two following lessons to check the extent to which groups had been able to collect the required answers and for groups to provide feedback to each other (2.3, 5.1, 5.3). My later analysis of completed worksheets revealed that the responses were generally clear and accurate although a number of students struggled with the average age of death calculation and how to work out ages from birth and death ranges so I will need to revise this during maths lessons (5.2, 5.4).

Four parents accompanied the class and provided invaluable assistance in guiding children to key sources of information. One of the parents wrote to the principal (with a cc to me) to commend the organisation and content of the activity and the respectful behaviour of the students on the day (Attachment 9 – Email from parent).
This example serves as an illustration only.

It shows how a teacher has provided different examples annotated to show how s/he addresses the descriptors of just one Standard, in this case Standard 4 - Create and maintain supportive and safe learning environments.

The evidence examples (as per Appendix 1) provided by the teacher include:
- Documented or observed management of student behaviour including implementation of clear expectations, protocols and/or rules and consequences (4.1)
- Documented and/or observed implementation of classroom management strategies, including entering/exiting the room, interactions and moving in the classroom during lessons (4.2)
- Notes which reflect on explicit teaching and learning strategies to promote safe, responsible and ethical use of ICT in learning and teaching (for example, awareness of cyber bullying, harassment, appropriate use of text messaging) (4.5)

The biggest issue for me is that mobile phones are increasingly prevalent and many of my students have them in the classroom. Parents provide mobile phones to their children for safety and other reasons, so they are not banned by the school. However they are expected to be turned off and out of sight as they are highlighted in the policy extract above. It is an ongoing battle to implement this policy as students put their phones on silent rather than turning them off, and frequently bring them out when I am occupied working, with small groups etc. I have talked to my class many times about self-control, following rules and about responsible social behaviour (Descriptor 4.5). So far there have been no incidents of bullying or harassment that I am aware of, but the phones are a constant source of distraction.

The teacher could use the same approach to evidence each of the remaining Standards, or use a variety of approaches including using one quality item/activity such as an annotated teaching and learning program to provide evidence for a range of descriptors.

The evidence mapping template (Appendix 2) enables teachers to identify the key evidence (as per Appendix 1) provided to address each descriptor.

Dear Mr xxxx

Last Friday I had the opportunity to accompany Ms J and her Year 5 class to Cading Memorial Cemetery as part of the history program. I must compliment Ms J on her organisation of the worksheet the students used, but mostly on how well the students behaved during the excursion, they were obviously very interested and involved in the activities, they were also respectful and kept nice noise levels. Ms J reminded them about respect when they got off the bus, and she only had to remind them once. The students were very respectful during the time we were at the cemetery. Ms J obviously has established very clear routines with her class.

I also appreciate the fact that Ms J invited parents to participate in the excursion. Not only did this provide an opportunity to support the children but it was also a fascinating experience from an historical perspective. I learnt a lot about local history that I was completely unaware of, including how valuable these cemeteries are as a source of information.

Regards

M ….

This letter confirms that I am able to demonstrate the following elements of Standard 4 - establish and maintain orderly and workable routines to create an environment where student time is spent on learning tasks (4.2) and establish and implement inclusive and positive interactions to engage and support all students in classroom activities (4.3).

The letter is also an example of how I establish and maintain respectful collaborative relationships with parents/carers regarding their children's learning and wellbeing (7.3).
Extract from *Behaving responsibly (Cading School), and classroom rules*

Staff, students and parents/carers share clear and consistent expectations and understandings for responsible student behaviour. School rules promoting safe, responsible and respectful behaviour have been agreed upon and endorsed by all staff and the school community.

Students are taught directly the behaviours they are expected to demonstrate at school. A matrix is available that outlines general rules and behavioural expectations in all school settings including classrooms, the playground, access areas, toilets and external footpaths surrounding the school.

**Teachers are encouraged to involve students in creating rules and expectations for particular situations.**

A formal recognition and monitoring system has been developed including the use of positive notice cards and targeted behaviour support. This reinforcement system is designed to increase the quantity and quality of positive interactions between students and staff. All staff members are trained to give consistent and appropriate acknowledgement and rewards. When unacceptable behaviour occurs, students experience predictable consequences.

These rules are what 5J came up with when we discussed classroom behaviour and expectations at the beginning of the year (Descriptor 4.2) as per the highlighted extract in the Behaviour Management plan.

**5J - Our Classroom Rules**

- Enter and exit room quietly and orderly
- Follow instructions straight away
- Be in the right place at the right time
- Keep hands, feet and objects to yourself
- Ask permission to leave the classroom
- Complete set tasks
- Be involved in classroom activities
- Respect others’ personal space and property
- Use polite language
- Talk in turns
- Be a good listener
- Be a problem solver
- No bullying
- No using electronic equipment except when the teacher directs it

Some of the strategies I use to manage when students forget some of these rules are verbal warnings, moving the student to another seat or changing the seating plan, and providing positive reinforcement for good behaviour including praise. Sometimes I send a note home in the student’s diary and occasionally I refer a student to lunchtime detention (Descriptor 4.2).

When a student exhibits more disturbing behaviour such as fighting, using obscene language or behaving in an unsafe manner I refer the behaviour to the appropriate support staff as per the school’s behaviour management policy (Descriptor 4.4).
The Australian Professional Standards for Teachers were endorsed by Australia’s Education Ministers in December 2010 and released by Australian Institute for Teaching and School Leadership in February 2011.
